Content of the report

The Management Board of Tire Company Dębica S.A. (hereinafter: the "Company") hereby announces the preliminary selected results for the nine months of 2026:

- **Net revenues from the sale of products and goods:** PLN 2,131,529 thousand
- **Net profit:** PLN 67,280 thousand

The results for the nine months ended 30 September 2026 were affected by lower prices realized in transactions with related parties and the continued challenging macroeconomic environment in which the Company operates.

In the opinion of the Management Board, the results for the nine months of 2026 should not be treated as a source of guidance or forecasts with respect to the Company's results in subsequent periods, due to the fact that business circumstances are still unstable. At the same time, the Company notes that the above data are estimates obtained during the preparation of the condensed financial statements for the nine months of 2026, and they are subject to change. The final results will be made public in the form of a periodic report for the nine months of 2026, the publication of which is scheduled for **November 19, 2026**.
